Obama lead in Ohio down to 1 point

Raleigh, N.C. – PPP's newest Ohio poll finds Barack Obama leading Mitt Romney 49-48, down from a 51-46 advantage a week ago. Romney's closing the gap thanks to a lead among independents (49/42) and because the Republican base is continuing to become more unified around him with 90% of GOP partisans now saying they'll support him compared to 85% a week ago. Ohio voters think Obama won the debate this week 48-39, but that doesn't seem to extend to more people voting for him.

Obama does have one big advantage in Ohio though- he's already winning the election there. 21% of voters in the state say they've already voted, and they report having supported Obama 66/34. Romney has the 52/44 advantage among those yet to cast their ballots but obviously it's easier to count on votes that are already in the bank.

There are some troubling signs for Obama in the poll though. Ohioans trust Romney more on the economy by a 51/47 margin and trust him more on Libya 49/47. Obama had the advantage on each of those issues in our poll last weekend. Voters do trust Obama over Romney by a 52/44 margin on women's issues, and Obama leads 55/41 with female voters in the poll.

Sherrod Brown continues to lead in the Senate race, 49-44 over Josh Mandel. That's a little bit closer than it was last week at 49/42, reflecting conservative voters unifying around Mandel a little bit as the election nears. Brown is holding onto his own support though. He has a narrowly positive approval rating at 44/43, while Mandel continues to be quite unpopular with 38% of voters rating him favorably to 50% with a negative opinion.

"Our Ohio poll reflects the new reality of this election- every battleground state is looking like a toss up," said Dean Debnam, President of Public Policy Polling. "Our most recent polls in Florida, Iowa, New Hampshire, North Carolina, Ohio, Virginia, and Wisconsin have all found the candidates within 2 points of each other."

PPP surveyed 532 likely Ohio voters from October 18th to 20th.. The margin of error for the survey is +/-4.3%. This poll was not paid for or authorized by any campaign or political organization. PPP surveys are conducted through automated telephone interviews.
