Americans like Witches, the IRS, and even Hemorrhoids better than Congress

**Raleigh, N.C.** – While Congress remains divided amidst the government shutdown, Americans are united in their disapproval of the legislating body. Of registered voters polled, 85% disapprove of the job Congress is doing. Only 8% approve- Democrats, Republicans and Independents are almost equally united in their distaste for Congress, with only 7%, 10% and 8% approving respectively. Very conservative voters differed slightly with a support of 15%.

Older voters disapprove of Congress at a higher rate than their younger counterparts. At least 85% of registered voters ages 30+ are critical of the legislature, compared to 70% of those between the ages of 18-29.

Americans currently have a higher opinion of witches (46/32), jury duty (73/18) and hemorrhoids (53/31) than Congress. Republicans seem much more accepting of Congress over hemorrhoids compared to other voters -- 41% favored Congress more than the diseases, as oppose to only 25% of Democrats and 27% of Independents.

Even government institutions like the DMV and the IRS are seen as more favorable than Congress currently, at 58/24 and 42/33 respectively. Almost twice as many Republicans still support Congress over the IRS (48/25), while only 23% of Democrats do (23/59).

Half of registered voters have a higher opinion of Congress than of Anthony Weiner right now (50/23). In fact, public figures are some of the only people that registered voters dislike more than the legislature. Americans thought higher of Congress when asked about Vladimir Putin (49/28), Charles Manson (56/18), Honey Boo Boo (42/33) and Miley Cyrus (36/31) – with 'twerking' also four points below Congress at 37/33.

"Congress having an 8% approval rating tells us one thing about how unhappy voters are," said Dean Debnam, President of Public Policy Polling. "But it's even more telling that voters have a lower opinion of it than annoyances like the DMV and jury duty, health issues like hemorrhoids, and even witches."

PPP surveyed 502 registered voters between October 4-6, 2013. The margin of error for the overall survey is +/- 4.4%. This poll was not authorized or paid for by any campaign or political organization. PPP's surveys are conducted through automated telephone interviews.
