Kirk Unpopular, Trails Duckworth

Raleigh, N.C. - PPP's newest Illinois poll finds that Mark Kirk's popularity is plummeting, and he trails Tammy Duckworth in a hypothetical match up. Kirk was already struggling when we last polled the state in February- only $28 \%$ of voters approved of the job he was doing to $32 \%$ who disapproved. After getting involved in a series of controversies over the last five months his numbers have turned even more in the wrong direction- now only $25 \%$ approve of him with his disapproval spiking up to 42\%.

Duckworth leads Kirk 42/36 in a head to head. Although a plurality of voters in the state (42\%) have no opinion about her, she's popular among the people who are familiar with her, with $34 \%$ rating her favorably to only $23 \%$ with an unfavorable view.

Duckworth is also the overwhelming favorite in the Democratic primary, leading Andrea Zopp 59-10. That includes a 57-13 advantage for Duckworth with African American primary voters. There's a big electability gap for the Democratic hopefuls when it comes to a match up with Kirk- Zopp would do 15 points worse than Duckworth at this point, trailing Kirk 38/29.

One thing very much to Democrats' advantage in the Senate race is that Hillary Clinton has a substantial lead over the Republican field in the state. She is up by anywhere from 9 to 18 points against the GOP hopefuls. The Republicans who come closest to Clinton are Jeb Bush who trails by 9 at 48/39, Rand Paul who trails by 10 at 47/37, and Scott Walker who trails by 11 at 50/39. The GOPers who do the worst against Clinton are Donald Trump who's down 18 at 51/33, and Ted Cruz and Mike Huckabee who each trail by identical 16 point margins at 51/35.
"Mark Kirk might be the most vulnerable Senator in the country next year," said Dean Debnam, President of Public Policy Polling. "His approval numbers are terrible, Hillary Clinton's strength in the state will make things harder for him, and Tammy Duckworth is looking like a solid challenger."

Public Policy Polling surveyed 931 registered voters, including 409 Democratic primary voters and 369 Republican primary voters, on July $20^{\text {th }}$ and 21st. The margin of error for the overall survey is $+/-3.2 \%$, for the Democrats it's $+/-4.9 \%$, and for the Republicans it's $+/-5.1 \% .80 \%$ of participants responded via the phone, while $20 \%$ of respondents who did not have landlines conducted the survey over the internet.
