### **Americans Closely Divided on Brian Williams**

**Raleigh, N.C.** – PPP's annual TV News poll finds that Brian Williams' recent problems haven't had any impact on overall perceptions of NBC News. Voters are evenly divided, with 40% saying they trust NBC News and 40% saying they don't. Those numbers are virtually identical to what we found on the 2014 iteration of this poll, when 39% said they trusted NBC and 39% said they didn't.

Even though the controversy hasn't affected perceptions of NBC much overall, it's definitely impacted feelings about Williams. 31% of voters have a positive opinion of him to 39% with a negative one. There's close division about whether he should be able to return- 39% say yes while 36% think he should be fired. There are big partisan divides in attitudes towards Williams. Among Democrats 52% think he should be allowed to come back to just 24% who believe he should be fired. But among Republicans only 32% support his return with 45% saying he should be let go.

If NBC does decide to replace Brian Williams with Lester Holt they won't see much of a drop off in popularity. Holt's favorability rating of 30% falls just below Williams' 31%, but he doesn't have near the quantity of voters who dislike him with only 15% giving him a negative rating to Williams' 39%.

“When we do our TV news poll every year we tend to find Democrats and Republicans divided about a lot of things and Brian Williams is just the latest,” said Dean Debnam, President of Public Policy Polling. “The close division in feelings about him reflects polarization nationally.”

When it comes to who people trust and distrust the most overall in TV news the answer is the same as it is every year- Fox News on both counts. 32% of voters say they trust Fox the most in TV news to 14% for PBS and CNN, 10% for ABC News, and 9% for CBS News. NBC News at 5%, and MSNBC and Comedy Central at 4% rate lower. Fox News also wins out when it comes to who viewers trust the least though. 30% pick it on that front to 20% for Comedy Central, 15% for MSNBC, and 11% for CNN. No one else polls above 5% for least trusted.

PPP surveyed 691 registered voters from February 20<sup>th</sup> to 22<sup>nd</sup>. The margin of error for the survey is +/- 3.7%. 80% of interviews for the poll were conducted over the phone with 20% interviewed over the internet to reach respondents who don't have landline telephones.
