TX GOP prefers Perry for president, Dewhurst for senate

Raleigh, N.C. – When PPP polled the Texas Republican Presidential field in January, Rick Perry was stuck in sixth place with only 9% of the vote. Now, with renewed speculation over a Perry bid, Perry leads with 31%. Perry more than doubles Mitt Romney's 15%. Romney is followed by Michele Bachmann with 11%, Ron Paul and Sarah Palin with 9%, Newt Gingrich with 8%, Herman Cain with 6%, and Tim Pawlenty with 2%. Perry is strong with very conservative voters, taking 34%, but trails Paul and Romney with moderates; however, moderates make up only 15% of GOP voters.

If Perry doesn't throw his hat into the ring, Romney and Bachmann are neck and neck. Romney takes 17% to Bachmann's 16%, Palin's 14%, Gingrich's 11%, Cain's 8%, Pawlenty's 6%, and Huntsman's 5%. In a variation from the norm, if Palin does not run in Texas, Romney remains just as strong taking 21% while Bachmann takes 19%, Gingrich takes 13%, Paul takes 12%, Cain takes 10%, Pawlenty takes 7%, and Huntsman takes 5%. Since Bachmann and Perry both show strength with very conservative voters, a Perry run could end up weakening Bachmann's position considerably.

If David Dewhurst chooses to run for the Senate seat Hutchison is vacating, he starts with a considerable leg up in the primary. Dewhurst leads with 40% followed by Ted Cruz and Dan Patrick with 11%, Tom Leppert with 5%, Elizabeth Ames Jones with 3%, Glenn Addison and Roger Williams (who announced last week he will instead run for the House) with 2%, and Lela Pittenger with 0%. The contest may narrow as over 70% of voters have not yet formed an opinion of either Cruz or Leppert. Nevertheless, Dewhurst has the advantage.

The contest is a whole different ballgame if Dewhurst chooses not to enter the fray. In this case, undecided rules the day. Its 40% more than doubles the support of the strongest candidate. Cruz has a narrow lead with 16% to 13% for Patrick, 12% for Leppert, 11% for Jones, 4% for Addison, 3% for Williams, and again 0% for Pittenger.

PPP surveyed 400 usual Texas Republican primary voters from June 25th to 27th. The margin of error for the survey is +/-4.9%. This poll was not paid for or authorized by any campaign or political organization. PPP surveys are conducted through automated telephone interviews. PPP is a Democratic polling company, but polling expert Nate Silver of the *New York Times* found that its surveys in 2010 actually exhibited a slight bias toward Republican candidates.
