### **GOP ticket leads in Arkansas**

**Raleigh, N.C.** – PPP's newest Arkansas poll finds Republicans leading across the board in the state's key races for this year, led by Tom Cotton with a 43/38 advantage over Mark Pryor and Asa Hutchinson with a 44/38 lead over Mike Ross at the top of the ticket.

Cotton's lead is up slightly from 41/39 on our previous poll. Voters aren't in love with him- 40% see him favorably to 41% with an unfavorable opinion. But Pryor continues to have tough approval ratings, with 36% giving him good marks to 51% who disapprove. Both candidates are receiving 77% of the vote from within their own party but Cotton has a substantial advantage with independents, getting 53% of their vote to 20% for Pryor.

The Governor's race is pretty steady with Hutchinson's 44/38 lead little changed from 43/38 in early August. Hutchinson has positive favorability numbers (43/35) while voters are pretty closely divided in their feelings about Ross (35/36). The strong GOP advantage with independent voters carries over to this race too- 48% support Hutchinson to 23% for Ross.

Barack Obama has a 31/62 approval rating in Arkansas, including 13/80 with independents, and that's probably making things hard for the Democratic ticket in the state.

The news isn't all bad for progressives in Arkansas. The state's initiative to raise the minimum wage is headed for overwhelming passage- 68% of voters are behind it compared to only 24% who are opposed. It's a rare thing we even find with support across party lines- Democrats give it its most emphatic support at 88/7 but Republicans (56/35) and independents (54/36) are behind it as well.

“Arkansas is leaning toward supporting the GOP ticket right now,” said Dean Debnam, President of Public Policy Polling. “The silver lining for Democrats is that they’re only down by 5 or 6 points in the key races, leaving some room for a comeback. It’s not like 2010 when Blanche Lincoln was down by 20 at this point.”

PPP surveyed 1,453 likely voters from September 18<sup>th</sup> to 21<sup>st</sup>. The margin of error for the sample is +/-2.6 %. 80% of interviews for the poll were conducted over the phone with 20% interviewed over the internet to reach respondents who don't have landline telephones.
