Perry, Bachmann tie Romney for lead in NC, CO

Raleigh, N.C. – Having made his bid for the Republican presidential nomination official Saturday, Rick Perry instantly becomes a big threat to Mitt Romney’s dominance in the Western primaries and in the South, where he is already potentially weak. Perry ties Romney in Colorado, where Romney had enjoyed a lead, albeit small, when PPP last polled the state in February. Romney gets 22% to Perry’s 21%, with Michele Bachmann at 15%, Newt Gingrich at 9%, Ron Paul at 7%, Tim Pawlenty at 6%, Herman Cain at 5%, and Jon Huntsman at 2%. With Sarah Palin in the field, Romney and Perry are deadlocked at 20%, with Bachmann back at 12%, Palin at 11%, and the others in single digits. Six months ago, Romney had 19% over Palin’s and Mike Huckabee’s 16% and Newt Gingrich’s 12%, with four others in single digits.

In North Carolina, Romney has declined from 23% to 16% since last month, and Bachmann from 22% to 17%, with Perry tying her for the lead, up from 14%. Gingrich and Paul are not much further back, at 11% each, with Cain at 9%, Pawlenty at 4%, and Huntsman at 2%. Palin’s presence makes a much bigger difference here than in Colorado. Bachmann falls back to 9%, with Romney, Perry, and Palin all at 17%, Cain at 11%, Gingrich at 10%, and the others in single digits.

As almost everywhere, Romney dominates with moderates in both states, but they make up only 21% of the Colorado electorate and 15% of North Carolina’s. He is starting to show some weakness with the center-right voters who make up 37% of each state’s voters. Perry leads Romney 21-19 in North Carolina, and Romney tops only 24-23 in Colorado. It is, as ever, with the furthest right voters that Romney falls seriously behind. A 42% plurality in North Carolina, they prefer Perry, 19-12, over Romney, with Bachmann at 18%, Cain also at 12%, and Paul at 11%. A significant 35% of voters in Colorado, the very conservative give Perry a dominant 28-18 advantage over Romney, with Bachmann at 17%.

PPP surveyed 400 usual North Carolina Republican primary voters, with a +/- 4.9% margin of error, and 314 usual Colorado Republican primary voters, with a +/- 5.5% margin of error, from August 4th to 7th. This poll was not paid for or authorized by any campaign or political organization. PPP surveys are conducted through automated telephone interviews. PPP is a Democratic polling company, but polling expert Nate Silver of the *New York Times* found that its surveys in 2010 actually exhibited a slight bias toward Republican candidates.
