McConnell Leading in Re-Election Bid

Raleigh, N.C. – The latest PPP poll has Republican incumbent Senator Mitch McConnell leading Democratic challenger Alison Lundergan Grimes. McConnell leads Grimes and Libertarian David Patterson by a margin of 44/40/7 with 9% undecided. Both major party candidates in this race face negative ratings; McConnell's approval rating is only 37% while 54% disapprove of his job performance. Grimes faces a net four point negative rating at 45% disapproval and 41% approval.

Among Democrats, 22% approve of his job performance and 23% say that they would vote for McConnell. The bright spot for Grimes in addition to the fact that the race is so close is that she leads among women in the state. Grimes has a net favorable rating among women at 44/40 and leads among women by one point 42/41. In addition, 11% of women remain undecided, representing a path forward for Grimes to overtake McConnell.

“Mitch McConnell's starting to see Republican voters unify around him a little bit more,” said Dean Debnam, President of Public Policy Polling. “That's allowed him to regain a small lead although the race remains very competitive overall.”

In the 2015 race for Governor Democratic Attorney General Jack Conway leads each of his likely Republican challengers; Cathy Bailey, Matt Bevin, James Comer and Hal Heiner. Conway leads Bevin and Comer each by three points; 39/36 and 38/35 respectively. Conway leads Bailey and Heiner by wider margins; he leads Bailey 42/30 and Heiner 39/32.

The President and his namesake healthcare law are still unpopular in Kentucky. When asked if they approve of the President's job performance 32% of voters say they approve but 63% of voters say they disapprove. The Affordable Care Act is less unpopular, across the state 34% of voters approve of the healthcare law while 51% disapprove. However the state operated healthcare marketplace, Kynect, has a net positive favorability rating, 34/27.

PPP surveyed 991 likely voters from August 7th to August 10th. The margin of error for the sample is +/-3.1 %. 80% of interviews for the poll were conducted over the phone with 20% interviewed over the internet to reach respondents who don't have landline telephones.
