Gov Snyder and Michigan GOP in trouble after Right to Work

Raleigh, N.C. – PPP's latest Michigan poll finds Governor Rick Snyder's approval waning at 38%, to 56% disapproval. At this point, any Democratic opponents that may step forward to challenge him are still mostly unknown. Representatives Gary Peters and Mark Schauer are seen as more unfavorable than favorable, 16/20 and 10/18 respectively, with the majority of voters not having an opinion either way, 64% and 72%. Lansing Mayor, Virg Bernero stood at 21/23 with 56% unsure, and state Senator Gretchen Whitmer was at 13-13 with 73% not sure. Democrats in the State Legislature are viewed favorably, 46/37, while the Republicans are seen unfavorably, 31/58. 32% say the Governor is "one tough nerd", his self-described nickname, to 41% who do not.

In hypothetical head-to-heads for the 2014 Governorship, Rick Snyder should worry. Even though potential Democratic opponents are not well-known at this point, voters are clear about their distaste for Snyder. They preferred every single Democratic candidate tested against him, with Virg Bernero performing the best, 49/38. Peters and Whitmer scored well with 8-point net leads each to Snyder (47/39 and 46/38). Mark Schauer also came out strong, 44/39. If an election for state legislature were held today, the majority of voters would support their Democratic candidate 56/32.

Voters do not support the Right to Work legislation, 51/41, probably because Labor Unions are seen favorably in the state, 52/33. When asked how they would vote if there was a referendum on the law, 49% would reject it and 40% would approve it. 44% of voters support recalling the Governor, to 48% who do not, and 8% who are unsure.

Michigan voters approve of the job President Obama is doing 53/44.

"Just last month we were talking about how much Rick Snyder's popularity had improved over the last year," said Dean Debnam, President of Public Policy Polling. "In the last week he's thrown that all away and now ranks as one of the most unpopular Governors in the country."

PPP surveyed 650 Michigan voters from December 13th to 16th. The margin of error is +/- 3.8 percentage points. This poll was not paid for or authorized by any campaign or political organization. PPP surveys are conducted through automated telephone interviews.
