Majority of Mississippi Voters Support Medicaid Expansion

Raleigh, N.C. – In the latest PPP poll Mississippi voters showed their support for the federally funded expansion of Medicaid with 51% of voters supporting it while only 32% of voters thought the state should not accept the expanded federal funding.

However, Republican Governor Phil Bryant who opposes Medicaid expansion still enjoys statewide support with 41% of voters approving of his job performance while 31% of voters disapprove. Bryant continues to enjoy a large amount of support from members of his own party, as 60% of Republicans approve of his job performance.

The poll also found that in potential matchups for Governor Bryant would be favored to win reelection against two possible Democratic foes, Jim Hood and Brandon Presley. Additionally, Senator Roger Wicker has a 39% approval rating compared to only 26% disapproval.

“Phil Bryant’s not a huge popular Governor but his approval numbers are solid enough,” said Dean Debnam, President of Public Policy Polling. “When you’re a Republican Governor in a Republican state with positive approval numbers you’re generally going to be a pretty strong favorite for reelection.”

The poll also found that 56% of voters in the state support raising the minimum wage to \$10 an hour. This measure is particularly popular among the state’s women, of whom 64% support raising the minimum wage to \$10 an hour.

While people never think of Mississippi as a swing state, if Hilary Clinton were to run for President in 2016 that may change. When polled against five potential Republican opponents; Jeb Bush, Chris Christie, Ted Cruz, Mike Huckabee and Rand Paul, Clinton never has less than 42% support and is in fact tied with Cruz 44/44. For the Republicans, Huckabee has the most support in the state, beating Clinton 49/42 in a potential matchup. That number is both the largest margin a Republican leads by and the largest percentage of support that any of the five candidates received.

PPP surveyed 691 Mississippi voters and 434 usual Republican primary voters from July 10th to 13th. The margin of error for the overall sample is +/-3.7% and the Republicans it’s +/-4.7%. This poll was not paid for or authorized by any campaign or political organization. PPP surveys are conducted through automated telephone interviews.
