Americans On Their Favorite Airline, And Other Travel Issues

Raleigh, N.C.- Southwest is America's favorite airline and it's not even close. Our newest national poll finds that 43% of voters think Southwest is the best, more than all the other major airlines combined. Delta takes second at 11%, followed by United and Jet Blue at 9%, American at 6%, and US Air at 5%. This is one thing that Americans across the party spectrum agree on- Southwest wins by at least 20 points with Democrats, Republicans, and independents alike.

58% of voters in the country have a favorable opinion of Southwest to only 5% with a negative one. The other five airlines we looked at are all clustered in the 31-36% favorability range, with anywhere from 9 to 15% of voters seeing them in a negative light.

By a 48/36 margin Americans say that they feel safer in a car than on a plane. This comes despite the fact that by a 69/15 spread they think they're more likely to die in a car crash than a plane crash...it seems like there's a disconnect between how people respond to the plane/car issue intellectually and emotionally.

Overall 46% of Americans say they've flown in first class on a plane to 53% who haven't. There's a partisan divide on the issue- by a 52/47 margin Republicans say they have flown first class, but by a 44/56 spread Democrats say they have not.

Amtrak is a pretty popular organization among voters with an opinion about it- 46% see it favorably to 13% with a negative opinion. Its +46 favorability rating with Democrats at 54/8 is much better than the +20 it sports with Republicans at 39/19.

-16% of Americans think you should be able to bring your gun onto a plane. There's a large partisan divide on the issue with 30% of Republicans but only 6% of Democrats supportive of guns on planes. We also asked about expanded background checks on this poll and a plurality of the people opposed to them also think you should be able to bring your gun on the plane.

PPP surveyed 800 registered voters between July 19-21, 2013. The margin of error was +/- 3.5%. This poll was not authorized or paid for by any campaign or political organization. PPP's surveys are conducted through automated telephone interviews.
