Wolf With Hefty Lead In Governor's Race

Raleigh, N.C. – PPP's newest Pennsylvania poll finds Democrat Tom Wolf with a significant lead over incumbent Republican Tom Corbett in the race for Governor, despite support for Corbett's decision not to appeal a recent court ruling on gay marriage.

Tom Wolf currently holds a 25-point lead over incumbent Governor Tom Corbett, bolstered by their diverging approval/favorable ratings, as Wolf picks up 55% of the vote to Corbett's 30%. Pennsylvania voters have a strongly negative view on Corbett's job performance, with 27% approving and 58% disapproving of his performance.

On the other hand, voters have a favorable opinion of Tom Wolf by a similar margin, with 47% viewing him favorably compared to only 20% unfavorably. Wolf naturally has strong support amongst Democrats, with 79% of the vote, but also picks up almost a quarter (24%) of the vote from Republicans, and a large majority (63%) of the vote amongst independents.

Despite the strongly negative view of Governor Corbett's job performance, a significant portion of the voters agree with his decision not to appeal the recent court ruling allowing gay marriage in the state. While 45% of voters agree with the ruling, 56% agree with Corbett's decision not to appeal, including 39% of Republicans.

This comes in a state that is pretty split on the issue of same-sex marriage, as 48% think it should be allowed in the state and 44% think it should not. Much of the disparity in agreement between the ruling and Corbett's decision to appeal comes amongst older voters. 48% of those older than 65 agree with the decision not to appeal, where as only 36% think that same-sex marriage should be allowed in the state.

"Things aren't getting any better for Tom Corbett," said Dean Debnam, President of Public Policy Polling. "His approval numbers are as poor as they've ever been, and Tom Wolf is starting out as an unusually well liked candidate for Governor even on top of that."

PPP surveyed 835 registered voters from May 30th to June 1st. The margin of error for the survey is +/- 3.4%. 80% of interviews for the poll were conducted over the phone with 20% interviewed over the internet to reach respondents who don't have landline telephones.
